

Generative AI for Business

Point of discussion

Difficulty differentiating an Airline from established competitors

Submitted to
Ms Lavanya Srivastava

Submitted by
Areen, Arnav, Rujal

Key Challenges

- Low brand awareness among potential customers.
- Strong competition from established aviation companies.
- Difficulty communicating a unique value proposition.
- Limited marketing budget compared with larger competitors.
- Need for a consistent and recognisable brand identity.
- Risk of appearing similar to existing aviation brands.
- Need to build customer trust as a new company.

How can Vayu Airlines use free or freemium Generative AI tools to create a distinctive, professional and consistent multimodal launch campaign that differentiates the airline from established competitors while maintaining accuracy, safety and brand credibility?

Image Generation

Prompt (Image)

Create a professional airline advertisement for Vayu Airlines, a fictional Indian regional airline targeting students, working professionals, tourists and families. Show a modern passenger aircraft flying over an Indian city during golden hour. Use deep blue, white and gold as the brand colours. Include the tagline 'A New Journey, Guided by the Sky.' Use a realistic, trustworthy and premium commercial aviation photography style. Do not include any real airline logos or branding. Ensure realistic aircraft proportions, clean composition and minimal advertising text. Use a 16:9 aspect ratio.

How the Image Addresses the Business Problem

The advertisement helps Vayu Airlines differentiate itself from established competitors by creating a distinctive visual identity using its deep blue, white and gold colour palette, original branding, and memorable tagline.

Gives Vayu Airlines a unique and memorable identity rather than appearing like a generic airline.

Can be reused across social media, digital advertising, presentations and promotional campaigns, maintaining brand consistency.

 More Than a Flight. A New Journey, Guided by the Sky.

Meet VAYU AIRLINES – a new-generation Indian regional airline designed around what today's travellers value: simplicity, comfort and dependable service.

Whether you are travelling for business, returning home to your family, or discovering a new destination, VAYU AIRLINES brings a fresh approach to every journey.

★ Why fly with us?

- Thoughtfully designed passenger experience
- Simple and transparent travel options
- Digital-first journey from booking to boarding
- Customer-focused service at every step
- Comfortable and reliable regional connectivity

We are not here to be just another airline. We are here to make every journey feel easier.

VAYU AIRLINES – A New Journey, Guided by the Sky.

PROMPT (Text)

Act as a senior airline marketing specialist. Create a professional promotional social-media post for Vayu Airlines, a fictional Indian regional airline targeting students, professionals, tourists and families. Highlight comfort, simplicity, dependable service and passenger-focused travel while differentiating the brand from established airlines. Use a modern, trustworthy and engaging tone and include the tagline “A New Journey, Guided by the Sky., Do not invent fares, routes, schedules, statistics, safety claims or awards. Keep it concise, premium and suitable for Instagram/LinkedIn, with a clear CTA and 3–5 relevant hashtags.

Text Generation

How It Helps Solve the Business Problem

The post helps Vayu Airlines stand out from established competitors by

Creating a distinctive brand identity.

Communicating clear values: simplicity, comfort and reliability.

Building brand recognition through consistent messaging and tagline.

Presenting Vayu Airlines as modern and customer-focused.

Providing low-cost promotional content for digital marketing.

Video Generation

How the Video Helps Solve the Business Problem

The video helps Vayu Airlines differentiate itself by
Creating a modern and memorable brand image.
Showcasing Vayu Airlines in a professional, premium way.
Strengthening brand recognition through consistent visuals and messaging.
Helping the airline stand out from established competitors.
Providing engaging content for social media and digital advertising.

What We Learned

- Vague instructions often produce generic or incomplete results.
- Adding relevant context and constraints significantly improves AI responses.
- Output format and tone should match the business audience and purpose.
- One-variable testing helps identify which prompt changes improve results.
- AI should be used responsibly by verifying information and avoiding unsupported assumptions.

CONCLUSION

Prompt engineering is not just about asking AI a question – it is about giving AI the right instructions to achieve a specific business objective.

Thank You
